Volume 3, Issue 2, December 2023

Research and Development in Education (RaDEn) is a scientific journal that aims at publishing research results and review in Research and Development of education in various science fields. Research and Development results can be in classroom-oriented, product-oriented, and system-oriented perspectives implemented in Indonesia and developing countries. The article published must meet plagiarism check requirements (based on editorial board decision). This journal is published twice a year, i.e. in July and December, in English.

All articles are published in English and undergo a peer-review process.

The scope of Research and Development in Education (RaDEn) is focused on:

1. Research results in Research and Development of education in various science fields.
2. Review in Research and Development of education in various science fields.
